

Early Spring 2010

As I sit in my cozy kitchen looking out at the mountains of snow still lining the sidewalks here in northern Virginia, I'm envisioning the snow-free sidewalks at Currituck Crossing and contemplating ways to convince my household to move down there before next winter. It gets more attractive every month: more warmth, less traffic, the Sound in my backyard, the chance to slow down and breathe.

North Carolina's Cooperative Extension Service provides a number of spring opportunities. Learn about pruning fruit trees, view the daffodil show, take advantage of the Arbor Day tree giveaway. Join in the Pedal-Foot-Paddle, a multi-athletic event that includes a bike ride, a run on the beach, and a kayak paddle on the Sound. The county maintains an event calendar that includes these and more at <http://www.co.currituck.nc.us/events-viewer.cfm>.

We'll soon begin our spring maintenance program at Currituck Crossing, seeding, mowing and planting. The model home is often open, and well

worth a tour. Come by and see us!

Whether you're looking for a new home, planning your retirement, or considering a new investment, look again at Currituck Crossing.
